MTS - WEEKLY MATH WORKSHEET

Grade 6 — WEEK OF 2026-08-24

Name: ______________________________ Level: Middle School

MONDAY

1. List all the factors of 24.
2. List the first five multiples of 7.
3. Is 29 prime or composite?
4. Is 36 prime or composite?
5. Write the factor pair of 18 that includes 3.
6. Find the greatest common factor of 18 and 30.
7. Find the least common multiple of 4 and 6.
8. Write the ratio of 3 red counters to 5 blue counters.

TUESDAY

1. Simplify the ratio 12:18.
2. A recipe uses 2 cups of rice for every 3 cups of vegetables. How many cups of rice are needed for 6 cups of vegetables?
3. What is the smallest prime number?
4. Write the prime factorization of 12.
5. Write the prime factorization of 18.
6. Write the prime factorization of 20.
7. Write the prime factorization of 24.
8. Complete the factor tree for 30: 30 = 3 x ___.

WEDNESDAY

1. Complete the factor tree for 42: 42 = 6 x ___, then write the remaining composite factor as prime factors.
2. Which number is prime: 21, 23, or 27?
3. Which number has the prime factorization 2 x 2 x 3 x 5?
4. Explain why 1 is not a prime number.
5. Write the prime factorization of 36.
6. Write the prime factorization of 45.
7. Write the prime factorization of 56.
8. Write the prime factorization of 72.

THURSDAY

1. Use prime factorization to find the GCF of 24 and 36.
2. Use prime factorization to find the GCF of 30 and 45.
3. Use prime factorization to find the LCM of 6 and 8.
4. Use prime factorization to find the LCM of 12 and 15.
5. A student says the prime factorization of 48 is 2 x 24. Is this complete? Explain.
6. A student writes 2 x 2 x 3 x 3 as the prime factorization of 36. Is the student correct? Explain.
7. Two bells ring every 8 minutes and every 12 minutes. If they ring together now, after how many minutes will they ring together again?

8. Two buses arrive every 15 minutes and every 20 minutes. After how many minutes will they arrive together?

FRIDAY

1. A teacher has 24 pencils and 36 erasers. She wants identical supply kits with no items left over. What is the greatest number of kits?
2. How many pencils and how many erasers will be in each kit from Question 33?
3. A number has prime factorization 2 x 2 x 2 x 5. What is the number?
4. A number has prime factorization 3 x 3 x 7. What is the number?
5. Find the missing factor: 2^2 x 3 x ___ = 60.
6. A rectangular garden has a length of 18 meters and a width of 12 meters. Find its area.
7. A recipe calls for 3/4 cup of flour. How much flour is needed for 4 batches?
8. A class has 18 students in one group and 24 students in another group. What is the ratio of the first group to the second group in simplest form?
