

Foundation

1. Write 5,742 in expanded form.
2. Round 4,863 to the nearest hundred.
3. Add: $3,425 + 2,318$.
4. Subtract: $6,014 - 2,587$.
5. Estimate the sum of $482 + 319$ by rounding to the nearest hundred.
6. A library has 2,145 books. It receives 1,872 more books. How many books does the library have now?
7. A school has 3,500 students. 1,248 students ride the bus. How many students do not ride the bus?
8. Compare using $<$, $>$, or $=$: $4,567$ ___ $4,576$.
9. What is the value of the digit 7 in 7,329?
10. A store has 428 apples and 365 oranges. How many pieces of fruit does the store have?

Data Analysis - Tables and Picture Graphs

11. Use this table: Favorite Fruit - Apples: 8, Bananas: 5, Oranges: 7, Grapes: 10. Which fruit is most popular?
12. Which fruit is the least popular?
13. How many students chose apples or oranges?
14. What is the difference between grapes and bananas?
15. How many total students were surveyed?
16. A picture graph shows books read. Each star = 2 books. Ana has 4 stars, Ben has 3 stars, Carlos has 5 stars, Dana has 2 stars. How many books did Ana read?
17. How many books did Ben read?
18. How many more books did Carlos read than Dana?
19. How many books did all four students read together?
20. Which student read exactly 6 books?

Data Analysis - Bar Graphs and Tables

21. Use this table: Library Visitors - Monday: 24, Tuesday: 31, Wednesday: 18, Thursday: 31, Friday: 26. Which day had the fewest visitors?
22. Which two days had equal visitors?
23. How many visitors came on Monday and Friday combined?
24. What is the difference between Tuesday's and Wednesday's visitors?
25. What is the total number of visitors for the week?
26. A bar graph shows transportation: Walking 12, Bus 9, Car 6, Bicycle 3. Which method is least used?
27. How many more students walk than ride a bicycle?
28. How many students travel by bus or car?
29. A line plot shows test scores: 2, 2, 3, 3, 3, 4, 5. What is the mode?
30. What is the range of the test scores?

Practice and Application

31. Three students read 124, 98, and 147 pages. Who read the most pages?
32. Who read the fewest pages?
33. How many pages did the first and third students read together?

34. A pictograph shows plants: Each square = 4 plants. Garden A has 3 squares, Garden B has 5 squares. How many plants are in Garden A?
35. How many plants are in Garden B?
36. A student collects 15 rocks on Monday, 23 rocks on Tuesday, and 19 rocks on Wednesday. How many rocks were collected in all?
37. Multiply: 6×47 .
38. Divide: $144 \div 12$.
39. What is the value of the digit 5 in 25,489?
40. Round 7,256 to the nearest thousand.

Mastery and Reasoning

41. A survey shows favorite colors: Red 9, Blue 12, Green 7, Yellow 6. How many students were surveyed?
42. A bar graph shows book sales: Monday 45, Tuesday 52, Wednesday 38. Which day had the highest sales?
43. A line plot shows heights in inches: 48, 50, 50, 52, 52, 52, 54. What is the most common height?
44. Multiply: 8×125 .
45. Subtract: $5,000 - 2,847$.
46. A farmer has 3,642 apples. He sells 1,758 apples. How many apples remain?
47. Divide: $256 \div 8$.
48. Explain how you would use a bar graph to compare data from different categories.
49. Add: $4,567 + 3,298$.
50. Create a simple table showing three types of fruit and the number of students who like each. Explain which fruit is most popular.
